

# TABLE

Tackling Environmental sustainability through Blended Learning opportunities for iVET in the furniture and wood sector (TABLE)

Project number:  
2020-1-FR01-KA202-079899

## OVERVIEW OF THE PROJECT AND MAIN GOAL:

To give teachers new knowledge about environmental sustainability and reduction of the consumption of natural resources to increase the engagement of student into VET programmes related to furniture.

## WHAT IS THE PURPOSE OF THE TABLE PROJECT?

1. Improve environmental sustainability through education in the furniture and wood sector for IVET schools
2. Ensure a quality culture in VET programs
3. Enhance access to training and qualification for all

## FOR THIS:

- 1 Learning, Training and Teaching Activity
- 2 Intellectual Outputs
- 6 Multiplier Events

# Project Newsletter

No. 4, MAY 2022

## Meet us at our upcoming multiplier events and learn about the TABLE MOOC!

The TABLE Consortium has recently achieved a key milestone of the project, namely the production of the MOOC “Educational tips: learning snacks for I-VET teachers in the furniture and wood sector”. Therefore, in June 2022 the partners will organise local events to present the MOOC contents and the project achievements to date. Events will take place in France, Italy, Spain, Romania and Poland. If you want to participate or have more information about the events schedule, get in touch with the partners.

## Pilot activities soon to kick-off

The partners will organise in June 2022 pilot activities involving teachers and students of i-VET schools in the furniture and wood sector to test the learning snacks developed in the framework of the project. The activities will aim to test the effectiveness and the quality of the materials produced, including the e-learning platform, and to gather feedback for improvement.

This will also be a key opportunity to detect also students' interest in learning about environmental sustainability, as well as the willingness of teachers to include this kind of training in their classes. The activities will take place in France, Spain, Romania and Poland.

The feedback received will be crucial to produce the second output of the project, namely the “Guidelines for the proper implementation of the Education for Sustainable Development into VET course in the field of furniture and wood sector”.
