What is new in the project?

Publication of the CirCLER Report on the Circular Economy Transition Manager (CETM) Curriculum Development

This report presents the development of deliverable 4.1 of the CirCLER project which entails the development of the Circular Economy Transition Manager (CETM) Curriculum. The curriculum is developed from the results of the CirCLER deliverable 3.1, which identified the Skills, Knowledge and Competency (SKCs) gaps and needs of a CETM.

Validation of the CirCLER Curriculum and Training Methodology - Advancing Circular Skills in the Furniture Industry

As part of the [CirCLER project](#), the validation of the newly developed Circular Economy Transition Manager (CETM) curriculum and training methodology marks a crucial step in equipping professionals with the skills needed for the furniture industry's circular transition. Led by the Institute of the Republic of Slovenia for Vocational Education and Training (CPI), the validation process gathered insights from key stakeholders, including educators, industry experts, and sustainability consultants.

NEWSLETTER 3 | April 2025

Circular Economy in the Furniture Industry: the role of futures thinking

The furniture industry faces a mounting waste crisis, exacerbated by fleeting design trends and a linear "take-make-waste" model of production and consumption. To address this challenge and transition towards a more sustainable, circular economy, the industry must embrace futures thinking - the practice of envisioning and planning for potential future scenarios.
